

Now that fall is upon us and the leaves are dropping, all leaves raked by residents must be put in plastic bags and put to the curb on your regular garbage day. Landscapers must remove any leaves and other debris they collect. At no time should leaves be piled at the curbside unbagged or blown into the street nor should any items be swept or placed in the Village's catch basins. Doing so creates a nuisance for your neighbors and will result in a Village summons.
